# Open Heart School

## Description of the Open Heart School Channeling Classes

---

My spirit guides and I founded this channeling school in 1988 and we have been teaching channeling ever since that time. Along the way, we have developed a series of Steps to Channel, which guide the beginning and intermediate student to channel in a safe environment and to aid the student in calming themselves in preparation to connect with spirit.

After accruing a tremendous amount of knowledge from teaching channeling for so long, from information gained at a number of schools and from my spirit guides' wisdom, we wrote a channeling textbook entitled *Channeling: The Heart & The Art*, which is used as the preparatory reading for all classes.

---

### ENTRY LEVEL CLASSES

You can attend either a one day Channeling: The Heart & The Art Workshop, two evening workshops or four private or semi-private classes, all of which teach the channeling basics and qualify you for the Ongoing Channeling Classes.

### Channeling: The Heart & The Art Workshop:

A one day workshop attended in person or through video conferencing. You will learn the Steps to Channel and how to connect to your Higher Self, Soul and one of your Spirit Guides who knows the skill of channeling. Tuition is \$200US. You can view more details at: <https://www.dianamuenzchen.com/channeling-school-workshops>

### Private Channeling Lessons:

You receive my complete attention and get personal confirmation about what you are doing as you channel. To learn the channeling basics, we offer you four private lessons. Areas covered are the same as the Channeling: The Heart and The Art Workshop- see above. Tuition is \$200US/hour. The first two lessons are 2 hours long each and the last 2 lessons are 1.5 hours long each.

### Semi-Private Channeling Lessons:

You can arrange a class with some of your friends who also are interested in channeling. To learn the channeling basics, we offer four semi-private lessons. You can book these lessons at times that are convenient for your group. Areas covered are the same as the Channeling: The Heart & The Art Workshop- see above. Tuition and length of each lesson depends on the number of people in your Semi-Private Channeling Class.

---

## ONGOING CHANNELING CLASSES

To improve your channeling skills after learning the basics, Ongoing Channeling Classes are offered. As you consistently practice in these ongoing classes, you learn more about how to be a clearer channel, getting your ego out of the way and allowing guidance to come through more clearly. There are three classes from which to choose, with each meeting twice a month and each receiving the same lesson from Michael the Archangel.

All four of these Ongoing Channeling Classes mentioned below offer an intimate group, no more than eight students per class, where you can share your spiritual and psychic experiences. Typically, at the beginning of each class, you have the opportunity to share about the channeling practice you did between classes and ask any questions you may have. Then you experience the Steps to Channel, Archangel

Michael leads you in a meditation and you practice channeling—all of which you can record in order to practice at home.

#### Michael the Archangel:

Michael the Archangel is the spirit teacher for all Open Heart School classes, including the private channeling lessons and channeling coaching sessions (see below). He leads all meditations and channeling exercises in all classes and may give homework at times. Periodically, Michael will give personal messages to you concerning your channeling growth and what you can work on next. You can ask Michael a couple of questions at that time as well. Usually, we inform you a month in advance of when Michael will be giving you a personal message.

#### Confirmation:

I can psychically sense what you are doing as you channel and give you feedback right in the moment, where it counts. Then, you can connect what you are sensing with what is happening in the moment, which is invaluable information for when you practice channeling on your own.

This confirmation helps you to become confident in your channeling skills.

#### Times for Ongoing Channeling Classes:

1. Wednesdays from 7-8:30pm ET
2. Thursdays from 1pm-2pm ET
3. Fridays from 2:30-4pm ET
4. Fridays from 6pm-7:30pm ET

Upcoming class dates are listed on our website at:

<https://www.dianamuenzchen.com/channeling-school-class-schedule>

#### Tuition:

Ongoing Channeling Class tuition is \$50/US per class. You register monthly. This flexibility of tuition payment month-to-month allows you to skip a month when needed.

#### Makeup Classes:

If you miss one of the two classes you have paid tuition for in a given month, you may attend another ongoing class within the same month you missed the class. This ensures that you learn the particular lesson Michael's teaching in that month.

## CHANNELING COACHING

If you channel already, we can work on any area of your channeling skill that you feel needs improvement. For example, moving past a block to your channeling, learning how to open more fully to your source of guidance or learning how to clear your personal energy field so you can sense your source of guidance more easily. You decide what you'd like to work on and we book an appointment at your convenience. Tuition is \$200US per hour.
